90 DAYS TO 9 MONTHS MODEL

The Power of Mindset is the new psychology for Growth and Success. The 90 days to 9 months model, concentrates on building the mindset of the student in first 90 days of college. Then students will work on building skill sets to transform their future. After 9 months, students can use both mindset & skill-set to achieve success in their life. Once this formula is understood, students are ready to face any situation without fear.

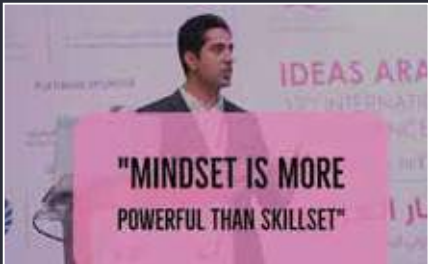

MINDSET

**SKILLSET
9 MONTHS**

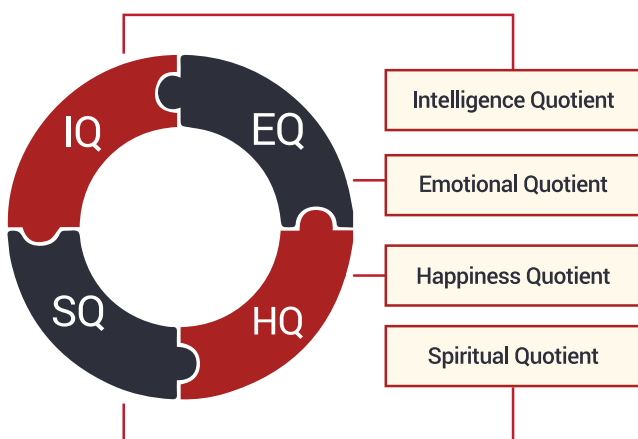

“MINDSET IS MORE POWERFUL THAN SKILLSET”

78th Verses in Chapter 18 of Srimad Bhagavad Gita

यत्र योगेश्वरः कृष्णो यत्र पार्थो धनुर्धरः ।
तत्र श्रीविजयो भूतिर्धुवा नीतिर्मतिर्मेम ॥७८॥

yatra yogeśvaraḥ kṛṣṇo
yatra pārtho dhanur-dharaḥ
tatra śrīr vijayo bhūtir
dhruvā nītir matir mama

yatra—where; yogeśvaraḥ—the master of mysticism; kṛṣṇaḥ—Lord Kṛṣṇa; yatra—where; pārthaḥ—the son of Prithā; dhanur-dharaḥ—the carrier of the bow and arrow; tatra—there; śrīḥ—opulence; vijayaḥ—victory; bhūtiḥ—exceptional power; dhruvā—certainly; nītiḥ—morality; matiḥ mama—is my opinion.

TRANSLATION : Wherever there is Krishna, the master of all mystics, and wherever there is Arjuna, the supreme archer, there will also certainly be opulence, victory, extraordinary power, and morality. That is my opinion.

UNIQUE MENTORING MODEL

Mentoring at GIBS is not a process, it is a model relationship that mentors and mentees hold. GIBS is concerned towards student's emotions, interests, growth. To address their concerns, the faculty, placement and alumni of GIBS follow a unique mentoring & counselling model. In addition, there will be a personal life coach & career counsellor available in the college.

Each GIBS student will be assigned one mentor from the L&D department, one from the Placement Department, one from the Business Department and one from Corporate. It will all be done on a one-to-one basis. The timing will be set in advance with the students. Mindset, skill set, spiritual quotient, emotional quotient, happiness & success, communication development strategies, family values and so on would be the main focus of mentoring.

CORPORATE PROJECTS

The Industrial Project based Learning approach has always been a priority at GIBS, where students create, develop, and build practical solutions to problems. Industrial projects have educational value since they are designed to develop students' creative problem-solving skills, often in small groups, to solve complex or poorly structured situations. GIBS included Social Internship Projects (SIP), Industrial Internship Projects (IIP) in the teaching pedagogy..

"You are not a drop in the ocean, you are the entire ocean in a drop." ~ Rumi

This quote resonates with me dearly as I sit here thinking of how GIBS Business School is making me realize and bring out the best of my inner abilities that I once wasn't quite aware existed in me or felt as though they didn't deserve to be shown to the world. Having been through a professional shift from CA to PGDM, I was all the more sceptical about my decision to join here but thanks to the rays of opportunities and learnings that I get to gather every hour of every day, that doubt of mine is now far from reach. GIBS is one such institution that has enabled learning to be more practical and fun-oriented – letting one have real-time exposure to the corporate world and be better equipped professionally via IRE sessions, marketing lab, various specialized societies, case studies, GIBS Finishing School, interviews, scheduled classes, expert sessions with professionals and guest speakers, networking, to name a few. The events are offered in a cohort style which fosters growth in both personal and professional networks. I am eternally grateful to the Managing Director, Mr. Ritesh Goyal Sir, Assistant dean Prof. Lakshmi ma'am, esteemed faculty members, the hostel warden ma'am, and my dear friends and classmates for their continued support and guidance all through the way. I look forward to seeing myself as a person who keeps ever-evolving, through experiences and knowledge gained in GIBS, and bring out my best in making this world a better place in all the big and small ways possible.

"This is the part where you find out who you are."

"Life is just a bowl of cherries. But it all depends on how they use it to make cherries taste fantastic." For me, the cherries started to taste fantastic at the GIBS Business School, Bangalore PGDM Degree which provided me with a good opportunity to make my career taste fantastic. I would like to thank GIBS College, Bangalore and express my sincere thanks to our beloved M.D Mr. Ritesh Goyal Sir for understanding and creating a good platform to showcase our skills. My sincere thanks to our Assistant Dean PGDM DR. Lakshmi mam for encouraging, enriching students and supporting them in every situation.

The faculty members are highly qualified professors who have vast knowledge in corporate world and the way they teach us is fabulous. The amount of joy and the practical knowledge what we gather here will surely help us in the corporate sector and especially the decorum what they maintain is to be appreciated. The college supports students and celebrates each function with joy and involves students as a family. The most important thing which I liked the most in GIBS is "Gibs Finishing School" where it makes all the students perfect and trains students to crack the interview with the help of Trainers which no other college does. I am Proud to be part of GIBSIAN and looking forward for a bright future and amazing year in GIBS.

I have an undergraduate degree in B.E. Computer Science and Engineering. After completing my UG, I joined GIBS College to pursue my PGDM course.

Various professors with their exceptional knowledge regarding the industry helped with the subjects. Being a student of an engineering background, I had a tough time grasping certain concepts and was lacking in the subjects, but the professors helped me in various ways in clearing all those problems and made me prepare well. There is also an additional subject named IRE that provides an understanding of how a typical business works and that helped me to come up with various innovative ideas and entrepreneurial plans through thorough research and made me understand what the world is looking for in an entrepreneur. The GFS, on the other side, has been helping me to overcome fears like public speaking and helps me communicate fluently by frequently indulging in various activities and providing assignments to overcome these problems.

I had done plenty of research until I came across GIBS. This institute has proven to be everything one can expect from an PGDM institute. It was difficult to find the needle from the haystack but not impossible and all my research paid off when I found GIBS.

It is different from other institutions not only because of its programmes but also because of approach with the curriculum. My experience so far has only been positive and I want to carry this positivity forward

After working as a doctor during a pandemic and gaining expertise in medical sciences, technology, and management, GIBS seemed like the ideal place to learn about the complexities of the sector. The biggest highlight is the unique blend of technology and management, wherein the heavy weights of the education industry, GIBS as your mentor. The subjects are covered with such clarity and detail, that no matter which academic background one comes from, the learning is both satisfying and rewarding. This is possible due to the world class faculty, a thorough professional team and a stiff course schedule which is demanding, to say the least.

Highly structured and intriguing content broken down for easy assimilation and execution.

Special thanks to GIBS for an initiative which give wings to thousands of students. The quality education along with all round development is the best part of the college. Infrastructure and hostel facility are one of the best. Finishing school session along with IRE has proved to be highly beneficial for us. I am highly obliged to be part of GIBS family.

A pool isn't just the same as an ocean. It has no energy, no Life". Quote by Linda Gerber

The above-mentioned quote stands true for the GIBS. This wonderful institution works on the philosophy of 'energy into everything'. This philosophy is a great motivator for students to work harder and make the most of the opportunities provided to them.

To come to this institution has been one of the best decisions as in this institute not only helps the students to excel academically but also looks into the overall development of the student such as public speaking, image management and other skills which are an absolute requirement.

All I can say is that this B-school is everything a PGDM candidate might hope for based on my own experience.

GIBS is like an open platform of opportunities for everyone. The exposure to knowledge and learning is quite a realistic thing at GIBS. I chose GIBS because of its unique and highly career-oriented programs like IRE School, where the students will be guided to think different and have a unique approach towards different situations. Professors here are not only the regular academics concerned, but also helps the students to think practical and bring out the best in them. It is all about how much effort one is ready to put in, it's like a knowledge mining center, you have to put in efforts to extract as much knowledge as you can. In each and every step we take or idea we think about the professors will always try their best to give us as much support and guidance as they can. GIBS for me is like a bunch of crazy people came in to create wonders through educating empty minds. It's a great opportunity for me to be exposed to such kind of college with varied culture and amazing programs blend in it. ."

INDUSTRIAL VISITS

Industrial visits represent important activities in any Business School that contributes to the achievement of various essential learning outcomes and programme objectives. Frequent Industrial Visits are organized in GIBS so that the student will be aware about how various activities related to marketing, finance and human resource are carried out in a company and this exposure will make them industry ready. The main reason behind this, is it lets student to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. The main aim of industrial visits are to provide an exposure to students about practical working environment.

CORPORATE TESTIMONIALS

GIBS is an esteemed institution where "theory meets practical". In this fast changing and dynamic business environment, what makes an organization more competitive is that your people have an edge over your competitor. GIBS is that you have talents who are practical and close to business in terms of implementing their learning. The syllabus, including the practical exposure, helps students to be "self starters" and to become part of your value chain from the Day One.

— Vikrant Hiremath, Capgemini

We have received a lot of value so far from our Corporate Partnership with GIBS Business school. In particular we are seeking access to fresh thinking and ideas across a broad spectrum of knowledge relating to the effectiveness of office-based work. We have quickly achieved this and are now developing innovative answers to a range of important practical challenges that we face.

— Mr. Mohan Kumar, Wipro

GIBS prepares its students for the corporate culture and instil the highest degree professionalism. I found that GIBS students have the same values that we do, in particular, commitment to complying with ethical standards, community service, and service excellence. We are a proud employer of the intellectual and diverse population of GIBS.

— Poonam Srivastava, ICICI Bank

I think what sets GIBS students apart from their peers is the experiences that they have very strong teamwork skills. Being in the retail field, I think they have had some amazing internships that are beneficial to our company.

— Allison D' Souza, Tommy Hilfiger

The area that GIBS students are most prepared for when entering the workforce is being real-world ready. They are able to adapt to a work environment, or not really being on a college campus anymore, and they have a realistic expectation of how to behave and how to conduct themselves.

— M J Narthan, Ethnus

The thing that sets GIBS students apart from their peers is that they are a very polished group of students. They present themselves very well and they are able to utilize their professional experience to cater themselves to what employers are looking for.
